About me

Passionate about technology and design, I thrive on delivering exceptional final products where clients can appreciate the intricacies of both interface and functionality. I am dedicated to staying updated with the latest industry trends and best practices, applying them in my day-to-day work to continuously enhance my skills and knowledge.

Experience

Frontend Developer
Yuno

may 2023 - present

Spearheaded the development of innovative functionalities and adaptable components for the **design system** leveraging **Storybook**, **MUI**, **Typescript**, and **React**. Collaborated closely with both developers and designers to conceptualize and refine scalable components that are easily implementable, thereby streamlining the development of new features and saving valuable time by eliminating the need to recreate redundant components. Ensured seamless teamwork and efficient communication throughout the project lifecycle.

Full Stack Developer
Freelance

dec 2021 - apr 2023

Independently conceived and executed full-stack web applications, from conceptualization to deployment, employing **Firebase**, **Tailwind CSS**, **JavaScript**, and **React**. Implemented **CRUD** operations and authentication functionalities, seamlessly integrating with pixel-perfect and responsive UI/UX designs crafted by myself in **Figma**. Delivered customized solutions tailored to client requirements, ensuring flawless functionality and a seamless user experience.

Graphic Designer
Freelance

jan 2019 - nov 2021

Working with clients seeking to enhance the image and aesthetics of their songs, albums, or events provided invaluable experience in client management and pre-defining project timelines and tasks. This experience taught me effective communication skills and the importance of clearly outlining project scopes before commencing work.

Education

Henry

2022

Intensive 800+ hour Full Stack Developer bootcamp.

Coder House

2021

Web Development with Javascript, React and Firebase.

Da Vinci Tertiary

2017 - 2020

Web Design and Development.
