# Why Floripa?

Florianopolis - known locally as Floripa - is true citadel material.

It's an Island in the south of Brazil, with 500k people, that's attached to the mainland with 2 bridges.

It has a micro-economy of it's own, driven by fishing, health & fitness, tourism, digital nomads and one of the best tech scenes in all of Brazil.

# Why Floripa?

## Not to mention...

- It has some of the nicest stretches of beach in the world
- It has some of the best Surf & Meat in all of South America
- There is already some Bitcoin penetration in the region
- It's a top 5 digital nomad destination for Latin America

It's also half the price of Costa Rica for most things including food and accommodation, and a third of the price of Japan.

# Why Floripa?

- Floripa is also 1-2hr flight from 5 major capitals
- Sao Paulo,
- Rio De Janeiro,
- Buenos Aires (Argentina),
- Asuncion (Paraguay) and
- Monte Video (Uruguay).
