Hi Birgitte,

I have ordered the more sturdy, load-bearing table for you today from Niels Bo. When I receive any kind of delivery indication, I will let you know. I've included your name and telephone number as a contact, so hopefully they will also reach out to you in a pinch.

Before I order the material for the scaffolding, I wanted to check in and make sure that the enclosure, as we have it at Herbarium C, makes sense for your herbarium. So, please find in attachment – the technical drawing with measurements.

**Subject:** FW: AAU table and light supports

Hi Birgitte,

Please see the information below and in attachment regarding the table and lights. Pip just asked me to proceed 😊

Do you think this table could work at Herbarium AAU?

What are your thoughts about the scaffolding vs. the light stands? I don't think that there are delays or backorders for the scaffolding material, but it might take a little time for us to receive them, book time in the metal shop to cut them and then get out to Aarhus to construct it and install the lights on the scaffolding.

**Subject:** AAU table and light supports

Dear Pip,

Looking at the issues at Herbarium AAU, I can see that these would be the costs

New table 13.325,00 DKK

Light stands 1.385,60 DKK or Scaffolding 6.260,44 DKK

Clamps, pins or adaptors TBD

Is this within the budget and can I send this over to Birgitte?

More info is below

Current Table at AAU  
2000 cm x 770 cm

### **Load Bearing Table at Herbarium C's imaging Workstations**

[https://www.nielsbo.dk/collections/lager-og-transportudstyr\\_arbejdsborde-pakkebe-](https://www.nielsbo.dk/collections/lager-og-transportudstyr_arbejdsborde-pakkebe-)

[haevesaenkeborde\\_haevesaenkeborde/products/2000-mm-bog-massiv-27-mm-mobilt-haeve-saenkebord](https://haevesaenkeborde_haevesaenkeborde/products/2000-mm-bog-massiv-27-mm-mobilt-haeve-saenkebord)

Size

2000 × 800 × 1090 mm

Astrid measured the following (plus images attached):

Underside of image table: 149 cm

Length of feet: 78 cm

Capacity

240 kg

Price

**13.325,00 kr** excluding moms

Lights: Nanlux TK-200

<https://goecker.dk/nanlux-tk-200-daylight-soft-panel>

Size

89 cm x 54 cm x 8.5 cm

Weight

5,68 kg

Fixture mounting

1× 1-1/8" Stud with 5/8" Receiver (Via Yoke Mount)

**Possible Light Stands: Manfrotto 1004BAC Master Stand**

<https://www.lightpartner.dk/manfrotto-1004bac-master-stand.html>

Capacity

Up to 9 kg

Min height 124 cm, Max height 366 cm

Fixture mounting

Top attachment: adapter art. 015, type 19, Male Attachment: 16, Male Attachment 2: 3/8" / 1/4"

Price

692,80 kr each excluding moms x 2 = **1385,60 kr** total

I am trying to figure out from the fixture mounting types for the lights and light stands are compatible, or if this would require additional adaptors. If we go with the scaffolding, we will need to purchase clamps.

Best,

Chelsea
