

Freshwater Animal Diversity Assessment

Unveiling freshwater species taxonomy – sharing knowledge globally.

Room for text here: text text texttext text texttext text texttext text texttext text texttext text texttext text texttext text texttext text text

Available organsim groups: *(Here we could add little icons of the taxagroups and their number of species like for the biodiversity records; this could of course be done manually given the funding constraints)*

Ostracoda
10.211 species

Nematomorpha
357 species

Ostracoda
10.211 species

Nematomorpha
357 species

Ostracoda
10.211 species

Nematomorpha
