## Motor set up

Operating Instructions for Remote Controller with Light Control
1. Function and Features

- 86mm*86mm, in accordance with international installation standard;
- The electric structure is partial conformity with the standard fire protection requirement of the electrician;
- Industrial grade microcomputer chip is used to improve product quality and reliability greatly;
- Use shock-proof current relay;
- Components using precision SMT industry, surface moisture-proof treatment;
- Power supply has safety protection, power supply time is 5 minutes;
- It is used with various emitters and tubular motors.

HC-PM03F\D-T1

① Motor: Up button
② Motor: Stop button
③ Motor: Down button
④ Light bulb: turn on/off button

HC-PM03\D-T1

⑤ Motor: Up button
⑥ Motor: Stop button
⑦ Motor: Down button
⑧ Light bulb: turn on/off button

Product Parameters

Product name	Remote controller with light control
Product model	HC–PM03F\D-T1
Receiving/ transmitting frequency	433.92MHz
Working temperature	-20°C~+85°C
Receiving sensitivity	-110dBm
Allowed number of transmitters	S8pcs

Product name	Remote controller with light control
Product model	HC-PM03\D-T1
Receiving/ transmitting frequency	433.92MHz
Working temperature	-20°C~+85°C
Receiving sensitivity	-110dBm
Allowed number of transmitters	S8pcs

Operating Instruction

A. Learning code

3-1

Must unplug over 10 seconds before plug in

**3-2**

*Within 7 seconds after plug in or power on* Open the back cover of the remote control and press and hold the code key for more than 5 seconds with a fine needle.
3-3

When the motor keeps beeping "dididi".

3-4

Press the "up button" of the remote control once and hear the beep of the motor, and the code matching is successful.

B. Deleting code

3-3

When the motor keeps beeping "dididi".

3-4

Press the "down button" of the remote control once and hear the beep of the motor, and the code matching is successful.
