EXPERIENCE

Full Stack Developer Intern — Offer Letter

July 2024 - present

DROIT, Bangalore

Remote

- Directed the development and launch of droit.care website, integrating a robust platform for product promotion, resulting in a 40% increase in online engagement and a 25% boost in sales.
- Engineered consultancy software using Curable to optimize online consultations and enhance digital healthcare services.

Full Stack Developer Intern — Certificates

February 2024 - June 2024

Tryidol Technologies Pvt. Ltd., Bhopal

On-site

- Designed and constructed the company's website, leveraging modern frameworks and SEO best practices, achieving a 50% boost in organic traffic in the first quarter.
- Led the creation of a multi-faceted MLM network platform, resulting in a 30% increase in client engagement and a 25% improvement in operational efficiency through real-time data visualizations and interactive dashboards

PROJECTS

Ecommerce Admin Dashboard — Live | Github | React, Typescript, React-Table, Chart.js, SASS

- Constructed a responsive dashboard with React Charts and React-Table, which streamlined data visualization and analysis; enhanced user interaction by reducing loading times and improving overall User experience.
- Developed interactive data visuals for revenue, transactions, top-selling products, and order fulfillment rates.
- Engineered a comprehensive inventory management system that streamlined order processing and improved stock accuracy, reducing fulfillment errors and enhancing customer satisfaction across multiple sales channels.

Auto Exports — Live | Github | React, React-table, Nodejs, Expressjs, Mongodb, Shadcn UI, TailwindCss

- Formulated high-performance **billing software**, increasing **transaction speed** 35% and reducing errors by 40%.
- Created responsive UI and customer profile system, boosting user engagement by 50%.
- Implemented a user-friendly customer profile management system, enhancing service quality and enabling targeted marketing.

3D Portfolio Website — Live | Github | React, Threejs, Three-fibre, Clarity, Tailwind CSS, Emailjs

- It is a visually appealing interface to display 3D projects using Three.js and Three-Fiber libraries.
- Used responsive design with Tailwind CSS for seamless viewing across different devices. Utilized React for efficient component-based development and smooth navigation within the website.
- Incorporated interactive elements to engage visitors and provide an enjoyable browsing experience.
