Description

Θα έλεγα πως θα έπρεπε να συζητήσουμε για την ένωση του hackolympia με τον SC. Ετσι και θα εχουμε ατομα στο hackolympia (που ηδη τα μαθηματα ειωαι ωραία απλως δεν έχει ατομα) μεσω του marketing που θα κανουμε για το SC και θα εχουμε ενα ακομα feature στο SC.

Benefit for Simplfied Coding: Usage of Simplified Coding

Benefit for Hack Olympia: More userbase

Description

Astro isn't currently providing the best "fit" for Simplified Coding and I suggest into looking into other frameworks like Vue, Svelte or Angular to fill this needed hole.

Resolution

Simplified Coding will rework its framework choice in order to use VUE

Course Template

Description

We should create a template for the courses, in order to use it as the foundation of the upcoming course overhaul.

Final Decision

Simplified Coding at this time does not need or require a course template in order to be sufficient
