

The PagerChanged event parameters of the PagerEventArgs.Pager.PageSize variable are not updated after changing the grid size. The error occurs if you set query.Add("grid-pagesize", pagesize). If query.Add("grid-pagesize" .. is not set, the variable contains the correct value.

e.Pager.PageSize not updated:

```
protected override async Task OnParametersSetAsync()
{
    .
    query.Add("grid-pagesize", pagesize);
    .
    .
}
```

114	Люксус С	Люксус С
115	Агроника	Агроника

1 2 3 ... 20 » Go to 1 Show 21 Items

```
protected override void OnAfterRender(bool firstRender)
{
    if (!_areEventsLoaded && _gridComponent != null)
    {
        _gridComponent.PagerChanged += PagerChanged;
        _areEventsLoaded = true;
    }
}
```

```
private async Task PagerChanged(object sender, PagerEventArgs e)
{
    await localStorage.SetItemAsStringAsync(pagesizesave, e.Pager.PageSize.ToString());
    Console.WriteLine("The pager has changed: PageSize: {0}.", e.Pager.PageSize);
    await Task.CompletedTask;
}
```

e.Pager.PageSize updates correctly

```
protected override async Task OnParametersSetAsync()
{
    .
    // query.Add("grid-pagesize", pagesize);
    .
    .
}
```

```
protected override void OnAfterRender(bool firstRender)
{
    if (!_areEventsLoaded && _gridComponent != null)
    {
        _gridComponent.PagerChanged += PagerChanged;
        _areEventsLoaded = true;
    }
}
```

```
private async Task PagerChanged(object sender, PagerEventArgs e)
{
    await localStorage.SetItemAsStringAsync(pagesizesave, e.Pager.PageSize.ToString());
    Console.WriteLine("The pager has changed: PageSize: {0}.", e.Pager.PageSize);
    await Task.CompletedTask;
}
```

```
protected override void OnAfterRender(bool firstRender)
{
    if (!_areEventsLoaded && _gridComponent != null)
    {
        _gridComponent.PagerChanged += PagerChanged;
        _areEventsLoaded = true;
    }
}

private async Task PagerChanged(object sender, PagerEventArgs e)
{
    await localStorage.SetItemAsStringAsync(pagesizesave, e.Pager.PageSize.ToString());
    Console.WriteLine("The pager has changed: PageSize: {0}.", e.Pager.PageSize);
    await Task.CompletedTask;
}
