Technique	Prompt template	Description
1. Role Playing	"You are an expert in {field} known for {key adjective}. Help me {task}."	Telling the AI to act as a famous expert or celebrity
2. Style Unbundling	"Describe the key elements of {expert}'s style/skill in bullet points." "Do {task} in the following style: {style}."	Describe what you like about a style rather than copying directly
3. Emotion Prompting	"Help me {task}. Please make sure {attribute}. This task is very important for my career."	Use emotional blackmail and persuasion with the AI
4. Few-Shot Learning	"Here are some examples of {task}. Generate a {task} for {new context}."	Add examples of the completed task to the prompt
5. Synthetic Bootstrap	"Generate ten examples of {examples} for {context}. Here are the inputs: {inputs}. "Generate {task} using {examples}."	Use AI to generate good examples of the completed task
