

AI Wrapped - ColorStack Winter Break Hackathon 2025

Francesca Dumary, Favour Iheanyichukwu, Vanessa Koranteng, Rachel Afforo

AI Wrapped

Problem

We have started to incorporate AI tools into our workflows, but we often fail to reflect on how frequently we rely on these tools. Discussions about responsible AI often focus on models and policies, but rarely on user behaviors.

Goal

AI Wrapped is a Chrome extension that tracks AI usage and generates a summary every week. Each weekly report shows the results of AI interactions and provides insights that encourage responsible AI usage.
